

Greetings User!

Welcome to GD. A smart way of communication!

Read the instructions well before starting the application:

- For best results, keep your hands at less than 60 centimeters from the camera in a well-lit room.
- Use your right hand only.
- To see the sign list, open both your palms and the image will be displayed for your reference.
- Since this application is in progress, it may happen that some similar looking signs get mixed. For this reason, try to replicate the exact same sign as shown in the image as it will give more accurate results.
- To quit the application, press 'q' or 'Q' from the keyboard.
- To form a word, follow the below given steps:
 - Firstly, show the letter gesture from the word
 - If the letter is recognized then press 'f' or 'F' from the keyboard, the screen will be freeze for a second and the letter will be added to the word.
 - Follow the above steps until the word formation is complete.
 - Once the word is complete, point out your thumb and index finger to form an "L". While keeping them extended, lift your little finger. Your middle and ring finger will keep touching your palm. This will display the word on the white screen
 - For clearing the white display screen just show the above gesture with both hands.

Thank you for using GD!
